Condensate Safety Overflow Switch

Purpose

The Asurity™ Condensate Safety Overflow Switch is a unique clamp-on float switch intended for HVAC drain pan installation.

Features

- Easy to use.
- Simple to install.
- Large over-clamping area that fits easily over the edge of all types of drain pans including formed plastic and galvanized sheet metal.
- Separate float/probe assembly swivels to accommodate drain pans having sloped sides.
- Swivel action allows the installer to position the float switch for best operation and then clamp it into place.
- Probe features an inlet grill which prevents the float from being blocked or damaged by insulation or other debris.
- Two wire connection for easy hook up to a thermostat.

Specifications

- Can operate contactor coils up to 1.25 Amps.
- Operates in series with 24 VAC contactor load.
- Activation Level: 1.5" depth **from bottom of probe.**
- ETL Listed file number 3166285
- Provided complete with 5' (1.5 meter) leads, wire nuts, and clamping screws.
- Warranty - 1 year
